

Treston Tower storage and workstation unit

Being versatile and easily customizable for different environments and tasks, the Treston Tower storage and workstation unit is ideal for, for example, vehicle and machinery assembly lines, service and maintenance departments, and for any work that requires plenty of mobile storage and work space near the task. Because the frame is equipped with the M30 upright frame module, almost all modular size M30 accessories are compatible with the Treston Tower storage and workstation unit.

- Up to 86 sq ft of versatile storage space and takes up less than 11 sq ft of floor space
- Ideal for facilities implementing LEAN and 5S philosophies because the open structure enables easy and quick visual tool storage
- Increases productivity and efficiency by saving time, since the tools and components are near the job being done and can be moved easily
- Enables proper ergonomics, since all tools and supplies can be placed at the correct height for the user
- Width 33.86", depth 34.65", height 77.17"/82.87" (base/with casters)
- Max load 1322/2205 lbs (with casters/base)
